O, cheerfully the streamlet gurgles now, As April, though a cloud be on her brow, Smiles, through her tears, and beams of hope and Young Hebe of the months, propitious nymph, Pour out on the earth the fructifying lymph.

At thy approach, mild April, mother Earth Opens her bosom for the golden shower, Which fills her heart with hope and grateful mirth; Bringing Ceres's sons a planteous dower. From monarch oak e'en to the humblest flower All nature hallows thee. O, may no dearth, No bitter blight, or pestilential power, Sadden the homes of rural toil and worth Enough our isles have suffered. Let thy breath Bear on its balm the boon of heathful life; May plenty triumph o'er disease and death, And stricken lands one more with joy be rife. We hail thy presence, Hebe of the year! And O, propitious be the smile and tear.

LOUDON,

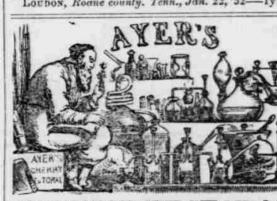

WHOLESALE & RETAIL DRUGGIST, On the Tennessee River, 30 miles below Knoxville and 75 above Chattanooga, (by land) the present terminus of the East Tennessee & Georgia Rail Road, and the point at which, most likely the Charleston Rabun Gap & Tennessee River Rail Road will unite with it, and cross the River to Knoxille, and thence to Lexington and Cincinnati, offers extraordi nary inducements to Capitalists, Merchants Manufacturers, and Mechanics.

TROM ITS POSITION IT WILL COMMAND in a great measure the trade of Upper East Tennessee, and portions of Virginia, Kentucky and North Carolina; and as the centre of a fertile and prosperous section of country, in the very heart of the United States, and almost on an air-line between the great cities of the North and East, and New Orleans, it will retain a heavy Trade, and be on the National throughfare after the Rail Road (now builbing) is completed to and through Virginia; and, as is most likely, will be united by iren bands with Charleston on the South, and with Lexington and Cinci-nati on the North, and as now with Augusta and Savannah, so at no distant day with Mobile, New Orleans, Memphis and Nashville. A very extensive and rich region of country above, drained by the Clinch, the Holston, the French Broad, the Little Tennessee, and the Tellico Rivers, all of which are navigable for Steam-Boats, must and Gout. This valuable remedy stands without ri- always make this point its market; and it must also command a large portion of the Flat-Boat Trade, which will bring to it vast quantities of Lumber, Iron, Coal, Salt, Plaster, Marble, Slate, Grain, and Provisions. All of these combine to make it a favorable location for manufacturing purposes, and for the purchase, sale, and forwarding of the rich products for which this country is noted. These great natural avenues of Trade, Travel, and Businessthe just anticipation that they will contre here-the vast and varied products of the soil, and the energy and industry of the people of the surrounding coun try, will afford the most extensive resources for the purposes of successful commerce, and justly entitle LOUDON to be looked to now as one of the most promising locations for a large and flourishing town. In addition to the above, the situation is elevated,

and as healthful as fresh mountain air, and pure water, gushing out in bold springs, can make itbeing in full view, from an eminence in its midst, of the Allegancy Mountains in one direction, and the Cumberland in another. These advantages, together with that of easy access, will make it a most agreeable and desirable place of resort for Southern people during the Summer months, and will also insure the blessing of Schools and Churches, which. with a wise forecast, are already being provided for. It remains but to enumerate some of the trades

and kinds of business that might be most successfully prosecuted here-such as Manufacturing generally of Cotton, Woolen and Negro Cloths; of all sorts of Agricultural Implements; Boat Building; Boot and Shoe Making; Manufacturers of Nails, Screws, Scythes, Spikes, Bolts, Axes, Cutlery and Copper Ware-Grain Fans, Threshing Machines and Corn Shellers; Steam, Grist, Flouring and Saw Mills-Iron Founders; Steam Engine and Boiler Maker; both for the River and Rail Road; Stove-makers Grain and Flour Merchants-dealers in Hides, Leather and Oil, Hatters, Tanners and Tailors-Plasterers and Painters: Brick and Stone Masons-Bridge and House Builders; Millwrights; dealers in Lime and other building material; Machinists; Plumbers; Tanners; Manufacturers of all kinds of Paints; Planing Mills; Marble Workers and Stone Cutters; Saddlers; Window Sash and Blind Makers; dealers in Staple and Dry Goods, Salt and Iron, and many other things too numerous to mention. Furthen information obtained, or lots sold on application to J. H. JOHNSTON, Agent

N. B. Great inducements will be held out for the establishment here of a Rolling Mill and Foundry, a Cotton or Woolen Factory, a Tannery with the boot, shoe and saddlery business connected with it, also for a steam Figuring Mill. Suitable lots for the Iron, Cotton or Woolen Manufactory will be given, while for all other manufacturing purposes they will be sold on extremely favorable terms LOUDON, Roane county. COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

OF all the numerous medicines extant, (and some of them valuable,) for the cure of pulmonary complaints, nothing has ever been found which could compare in its effects with this preparation .-Others cure sometimes, but at all times and in all diseases of the lungs and throat where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those who have tried it, but those who have not. Families that have known its value will not be without it, and by its timely use, they are secure from the dangerous consequences of coughs and colds, which neglected, ripen into fatal consumption.

The Diploma of the Massachusetts Institute was

awarded to this preparation by the Board of Judges in September, 1847; also, the medals of the three great Institutes of Art, in this country; also the Diploma of the Ohio institute at Cincinnati, has been given to the CHERRY PECTORAL, by their government in consideration of its extraordinary excellence and usefulness in curing affections of the lungs and throat. See what it has done on a wasted constitution, not only in the following cases, but a thousand more: SUDBURY, Jan. 24th, 1851. In the month of July last I was attacked by a violent diarrhoea in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My diarrhoen ceased, but was followed by a severe cough and much sore-ness. I finally started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw uo sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from its use. You would not receive these lines did I not regard it my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your CHERRY PECTORAL. Yours truly,

Washington, Pa. April 12, '48. Feeling that I have been spared from a premature grave, thro' your instrumentality by the providence of God, I will take the liberty to express to you my gratitude. A cough and the alarming symptoms of consumption had reduced me too low to leave anything like hope, when my physician brought me a bottle of your 'Pectoral.' It seemed to afford immediate els of good Merchantable WHEAT, for which relief, and now in a few weeks time has restored me we will give the highest market price delivered at Louto sound health. If it will do for others what it has done for me, you are certainly one of the benefactors of mankind. Sincerely wishing you every blessing,
